CHEADLE PRIMARY SCHOOL – FOREIGN LANDS

Aspire, Believe, Achieve

English

We will be exploring the classic story The Chronicles of Narnia: The Lion, the Witch and the Wardrobe. We will learn about the magical world of Narnia and the fascinating characters who live there. Using this story as inspiration, we will write our own detailed character descriptions and then create imaginative narratives about travelling through a portal into a magical land of our own design. This will help us develop our creative writing skills, expand our vocabulary, and learn how to build vivid settings and exciting adventures.

DT

We will be exploring electrical products and apply our understanding of electrical circuits through designing and making a torch using recycled and reclaimed materials. We will create a functioning torch with a switch according to their design criteria.

Music

We will continue to learn how to play the ukulele, building our confidence and skills to perform in front of others. We will also compose and perform contrasting rhythmic patterns and melodic loops in time with others.

PSHE

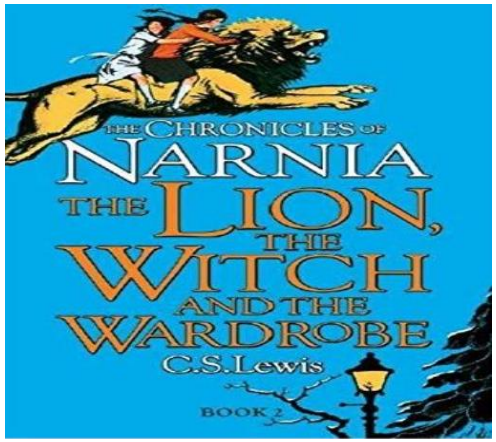

We will be learning about assumptions—how people sometimes make them and the ways others can influence these assumptions. We will learn about protected characteristics. We will discuss bullying and what to do.

Computing

We will design and programme a game using variables, sensors and 'if' statements to control outcomes and interactions.

Science

We will be learning all about electricity and circuits. We'll explore which appliances use electricity, investigate materials that are conductors and insulators, and discover what we need to make a complete, working circuit. By the end of the term, we'll understand how electricity powers the world around us!

PE

Fitness- We will explore different elements of our health & fitness and work to our maximum to improve our fitness levels. We will persevere when we get tired or feel challenged & encourage others to do the same. We will look for areas where we can improve our fitness and make suggestions how to do this. We will work safely in a controlled manner. We will focus on flexibility, strength, technique, control and balance.

Gymnastics - In this unit pupils develop balancing, rolling, jumping and inverted movements and use these skills to create more complex sequences. They work independently and in collaboration with others to create and develop sequences. Pupils are given opportunities to receive and provide feedback in order to make improvements on their performances.

Maths

We will be focusing on multiplication and division. We'll work on recalling and using all of our times tables up to 12 × 12, explore factor pairs, and learn how to multiply and divide by 10 and 100. We will also begin using formal written methods to multiply two-digit numbers by a one-digit number, helping us build confidence and accuracy with larger calculations.

RE

We will find out about the events of Pentecost found in the Bible. We will consider what the events found in Acts 2 might have meant for the first Christians and for Christians today. We will make links between the description of the day of Pentecost in Acts 2, the Holy Spirit and the Kingdom of God. We will learn how Christians today show their beliefs about the Holy Spirit in worship and the way that they live their lives.

Geography

We will be learning about Europe, with a focus on Greece. We will explore the continent, investigating different countries and their capital cities, and learn about both the human and physical features of Greece. We will also compare Greece to England, noticing similarities and differences in landscapes, culture, and communities.

French

We will be learning about clothes and getting dressed. We will practise correctly identifying different items of clothing and using the vocabulary in sentences to talk about what we wear.

Our Values

Resilience Excellence Self-Awareness Positivity Empathy Communication Teamwork
